**Subject:** Anterra

Hi Rob,

I wanted to give you a heads-up that there will be an EPA inspector (Jim Polek from our Clean Water Act/NPDES program) conducting inspections today and tomorrow at the Santa Clara wastewater and Anterra facilities. His plan is to visit Anterra on Tuesday some time. Note that he is not doing a UIC inspection, but he indicated he would be happy to have DOGGR personnel join him at Anterra if that is something you guys are interested in doing. Let me know if you think DOGGR staff would like to accompany him, or if I should discuss this with someone else. Thanks, David
